## 4. Add Camera

- Open **ezykam+** app, click "+" on the top right corner of the "HOME" page, then select "Specific model to add".

- Make sure that the Red LED indicator is blinking and voice prompt is audible.

- Enter your "Wi-Fi network and password", click "CONFIRM".

4.0 Add Camera

- Read the instruction about "Scan the camera QR code" and click "Continue".

- Scan the QR Code on your phone with camera. Heard a voice prompt, click "Heard the beep"

4.1 Add Camera

- When the indicator light on the device turn to steady blue light, the network configuration is complete.

- Please refer to the specific APP interface if there are any difference.

Frequently Asked Questions

1. **Can I share camera with family and friends?**
   Yes, you can share your cameras with family and friends who will have access to view the camera.

2. **What's the Wireless Range?**
   The range of your home Wi-Fi is heavily dependent on your home router and the conditions of the room. Check with your router specifications for exact range data.

3. **The camera appears offline or unreachable?**
   Make sure you entered the correct Wi-Fi password during the Wi-Fi setup. Check whether there is any Internet connection problem. If the Wi-Fi signal is too weak, reset your Wi-Fi router and try again.

4. **Cannot connect to your Wi-Fi network.**
   Make sure you entered the correct Wi-Fi password during the Wi-Fi setup. Check whether there are any Internet connection problems. If the Wi-Fi signal is too weak, reset your Wi-Fi router and try again.

5. **How many cameras can I control?**
   CP Plus app can control unlimited number of cameras in unlimited amount of locations. Your router may have a limit of how many cameras can be connected to one router.

Voice control works with Alexa or Google Assistant

- You can control your camera using just your voice with Alexa or Google Assistant-enabled devices.

System Requirements

- Smartphone running iOS® 9.0 or higher or Android™ 8.0 or higher
