Mission-Tech Trainings by CP PLUS Reaches Completion in Noida & Chennai

NOIDA, March 2019: CP PLUS recently conducted its technology-driven training initiative - Mission-Tech in Noida and Chennai regions. CP PLUS, the global leader in security & surveillance has been conducting the Mission-Tech training to impart in-depth knowledge about the latest surveillance technologies and offer hands-on experience of all types of security solutions and equipment to learners from different walks of life. Earlier also, the conglomerate has carried out successful training sessions across India in a bid to disseminate comprehensive knowledge of the surveillance industry and enable learners to devise innovative security solutions.

The CP PLUS Mission-Tech Certified Training Programs are designed to train and educate Surveillance System Engineers (SSE) on Installation, Operation and Maintenance of CP PLUS Products; designing Intelligent Security Solutions and inspire industry professionals into accomplishing results and launch their own business ventures. Mission-Tech certifies a professional under its elaborate training design through these certifications -

- CP PLUS Certified Surveillance Engineer (CSE)

- CP PLUS Certified Surveillance Professional (CSP)

- CP PLUS Certified Surveillance Designer (CSD)

Speaking about the recently conducted sessions, Mr. Yogesh Dutta, COO - CP PLUS said, *"**Mission-Tech is an ambitious initiative by CP PLUS to impart state-of-the-art knowledge and training to young and experience professionals, and enthusiastic technical learners from different walks of industry segments who aim to understand surveillance industry from a broader perspective. We have been successfully running the training sessions in multiple Indian locations dispersing training of the latest surveillance technologies, in addition to the fundamentals basics of security and surveillance sector. We are quite positive about the performance of Mission-Tech as a tool for imparting quality education of the surveillance domain and we will continue to cover as many locations in India as possible in the future."*

Mission-Tech is a government approved **Skill-India** initiative and duly recognized by **IASC (Instrumentation, Automation, Surveillance & Communication Sector Skill Council).** The training is provided to industry professionals conforming required experience criteria and is intended to enhance the solution-designing skills of the learners. By completing Mission-Tech training an individual is fully-empowered to design effective surveillance solutions using knowledge of the latest security equipment and deliver value to their respective industry or verticals. The course is designed considering the Indian business environment, thus making it highly beneficial in terms of relevance and industry application.
