

CP-ANW-HP8H2-96-V1

10 Port 10/100Mbps AI PoE Switch

- AI Extend: 1-8 port supports 250M meters long distance power supply (recommended cat 5 or above)
- AI VLAN: Isolating ports 1-8 from each other, restrain network storms effectively and improve network performance
- AI QOS: Prioritize the identified video data to make video transmission smoother
- AI PoE: Automatic detection power of port, power off and restart the device if find dead machine
- Supports IEEE 802.3af/at standard, automatically detects and identifies devices that comply with the IEEE 802.3af/at standard and supply power to it
- Intelligent power supply, the lowest power consumption, ensure PD power needs
- Supports Auto MDI/MDIX
- With power circuit protection, protect the safety of PD
- Adopt store-and-forward exchange method
- Fanless design, energy saving and environmental protection; no noise, reduce the impact on the environment
- Support port without link power saving function
- All ports have wire-speed forwarding capability

System Overview

As most of the CP PLUS products have been integrated with the Power of Ethernet technology which makes troubleshooting easier in case any errors occur. This can be done with the help of a PoE Switch makes increases reliability rapidly.

Functions

Supports 4 Working Modes

AI VLAN, AI Extend, AI PoE, and AI QOS and also supports IEEE802.3af/at, Max 30W output per port, AI Extend: 1-8 port supports.

CP-ANW-HP8H2-96-V1

10 Port 10/100Mbps AI PoE Switch

Functions

Better Connectivity

This PoE Switch has designed for outstanding power with flexible placement for better and advanced connectivity between network devices.

Switching Performance

This PoE Switch offers the forwarding capacity to simultaneously process traffic on all ports at line rate without any packet loss.

Easy to Use

This PoE Switch is quite easy to install and use. It requires no configuration and installation. With outstanding performance and quality, this Gigabit PoE Switch is a great selection for expanding your home or workplace network.

6KV Surge Protection

6kv is an internal electrical wiring standard which means that when large currents enter the device, the clamping voltage increases as well, so there will be a large amount of destructive energy getting passed through the 6kv protection. The 6kv surge protection is a feature in this PoE Switch that was designed to protect all the connected electrical devices from voltage spikes.

About CP PLUS

The brand that is on its way to lead the world when it comes to the security and surveillance industry, CP PLUS, keeps bombarding the market with the most reliable range of products that have been designed carefully and methodically to automate the whole surveillance and security process, no matter how big your premises are.

It was the initiative to help the public in the area where they are the most vulnerable and to empower the sense of safety in our hearts that had conceptualized CP PLUS. And embarking on its mission to make the world a safer and more secure place has taken the brand's journey to unprecedented levels even when compared to international competitors.

CP-ANW-HP8H2-96-V1

10 Port 10/100Mbps AI PoE Switch

Feature	Specification
Network Port	8 (10/100Mbps PoE RJ45 port (Port 1~ Port 8) 2 (10/100Mbps Non-PoE RJ45 port (Port 9~ Port 10)
Network Standard	IEEE 802.3i, IEEE 802.3u, IEEE 802.3x, IEEE 802.3af, IEEE 802.3at
PoE Pin	1/2 (+), 3/6 (-)
Transfer Rate	100Mbps full Duplex, 10 or 100Mbps Half Duplex
Bandwidth	2.0Gbps (no block)
Performance	Network delay(100 to100Mbps): maximum 20 μ s (using 64 byte packet)
Frame Filtering and Transmission Rate	10M port maximum 14,800pps 100M port maximum 148,800pps
LED indicator	Power, Link/Act , RESV
Power Budget	Max. Power Supply: 96W
Power Single Port	Max. Output: 30W
Operating Temperature	0°C~40°C
Working Humidity	10%~ 90% (Non-condensing)
Dimensions	184mm(L) x 94mm(W) x 27mm(H)
Weight	0.5Kg
