

CP- SA-L1030-V**IR Illuminator - 100 Meter****Main Features**

- Smart uniform IR radiation solution improves image quality & monitoring effect
- Leading IR technology provides high efficiency and long life span of LED
- Accurate constant circuit drive develops excellent performance of product
- Indoor/outdoor use, all-weather use.
- High integrated solution for easy installation and saving cost.

CP-SA-L1030-V

IR Illuminator - 100 Meter

Feature	Specification
LED type	6pcs 2W High Power IR LED
Wavelength	850nm
Beam Angle	30°
Panel	Tempered glass panel
IR Distance	100 Mtr.
Day and night switch	CDS 10-20lux ±10%
Mounting	Bottom mount bracket
Temperature	-40°C to 60°C
IP Rating	IP66
Cooling	Air cooling internal circulation
Blower	Included
Housing	Aluminum Die Casting Housing
Current	1000mA (Depends on input current)
Voltage	DC12V
Power consumption	12W
Lens Size	<φ57mm
Internal Dimension	250mm x 90mm x 10mm
Net weight	4.8kg
Gross weight	5.4kg
