

## CP PLUS Alights in Myanmar with an Introductory Partner's Meet

---

CP PLUS, the global leader in advanced security and surveillance technology, recently hosted an introductory Partner's Meet in Myanmar marking its entry in the country. The event was an introduction to the brand, its global presence and its key technologies through an elaborate technical session and live demonstrations. Partners from around the country gathered at the Park Royal Hotel on 29<sup>th</sup> May for the meet.

***"It was a great session. The people of Myanmar are very supportive and warm. We had a great experience conducting this show. I'd like to thank our partners here who made it to the meet and expressed their interest in CP PLUS technologies. We look forward to a great association with them",*** said Mr. Yogesh B. Dutta, COO, CP PLUS.

On showcase were CP PLUS Red and Indigo Series cameras and DVRs. While the Red Series is designed for small to mid-sized commercial installations, with up to 4MP resolution, H.265 compression, motorized zoom, WDR, starlight, night vision, etc., the Indigo Series are high end, enterprise grade

cameras that are designed rugged and undergo stringent tests to meet a wide range of environmental and situational conditions. They are equipped with resolutions up to 12MP, InstaStream compression, 44X zoom, Edge analytics, and more.
