

CP PLUS Showcases It's Latest at the Vietnam Show 2018

NOIDA, September 2018: In an elaborate show in Vietnam, CP PLUS, the leading global security brand, showcased its latest technologies. The 3 day event, which was held at the Exhibition Center, Ho Chi Min City, Vietnam, through 16th to 18th August, saw a packed audience with system integrators and industry patrons from across the country. The CP PLUS arena saw a grand showcase of its best products and solutions.

“It was a great and successful show. Vietnam has been a budding market for us and we were really looking forward to this show. To see the immense response and high footfall was extremely heartening and satisfying. We had some of our best solutions on display, such as our IoT cameras and solutions; Access Control solutions; IP mobile surveillance solutions, and Home automation solutions among others. We look forward to showcasing more of our technologies in the years to come”, said Mr. Yogesh B. Dutta, COO, CP PLUS.

Showcased at the show were the latest HD Analog solutions; IoT enabled integrated security solutions; state-of-the-art command and control center solutions and architecture; Time & Attendance Biometric solutions; Law & Enforcement solutions; Access Control solutions; IP Mobile Surveillance solutions; CP PLUS Smart Surveillance Monitors; PoE switches; Intelligent Network solutions; Smart Home solutions and accessories.

Seminars and live demonstrations were conducted every hour as well to provide insights on the discrete features of IP cameras and NVRs; latest technological updates on Analog HD solution; and solutions and applications of H.265 smart compression, Smart Analytics, Time & Attendance, Bodyworn cameras, Mobile DVR/ NVR, and Control Room.

The show concluded with immense commendation from system integrators and partners alike who took keen interest in acquainting themselves with the latest technologies.
