CP PLUS CERTIFICATION TRAINING PROGRAM  
FOR SYSTEM INTEGRATORS & PARTNERS

# MISSION TECH

A CP PLUS Initiative

The security & surveillance industry is on an upswing with a burgeoning need for trained and qualified System Integrators, who can design and customized solutions as per customer's needs, in most efficient and effective manner. The pace of the industry is such that it requires system integrators to be consistently updated and informed about the latest technological advancements, and their skills honed to work with the latest state-of-the-art products and solutions. CP PLUS IP Training Program is a step in that direction with an effort to keep our channel partners trained and our services relevant.

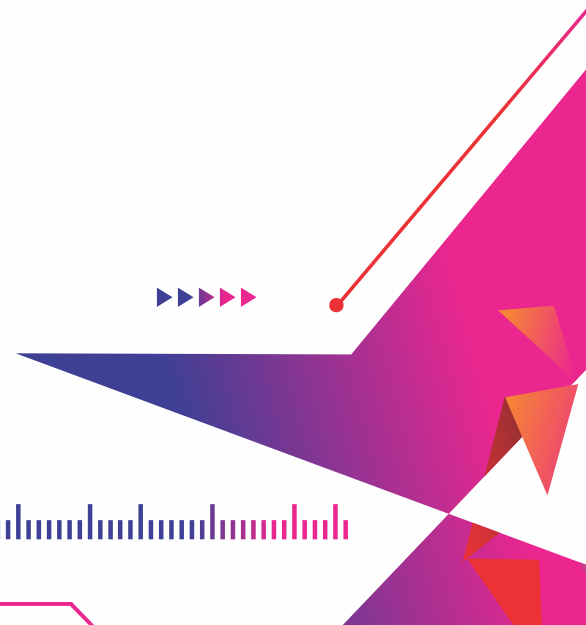

## GOAL

CP PLUS Training Program has been designed:

- To impart globally relevant, quality IP Video Surveillance Training, to the system integrators and partners.
- To up-skill and upgrade system integrators for effective and efficient CCTV solution designing & execution.
- To enable system integrators to deliver customized, robust and scalable solutions across different verticals.
- To deliver the value, by designing and implementing the most relevant surveillance solutions and thereby ensuring good ROI in CCTV business.

## OBJECTIVE

- CP PLUS Certification Program aims to train and educate Surveillance System Engineers (SSE) to **Install, Operate and Maintain CP PLUS Products, Design Intelligent Security Solutions** and provide a lifetime sustenance for total customer satisfaction.

# LEVELS OF LEARNING & CERTIFICATION

Level 1 :  
CP PLUS Certified Surveillance  
Engineer (CP PLUS CSE)

**- 4 Days Program**

---

Level 2 :  
CP PLUS Certified Surveillance  
Professional (CP PLUS CSP)

**- 3 Days Program**

Level 3 :  
CP PLUS Certified System  
Designer (CP PLUS CSD)

**- 2 Days Program**

## CERTIFICATION LEVELS

### Level – 1 (CP PLUS CSE)

**CP PLUS Certified Surveillance Engineer (CP PLUS CSE) Level – I** program provides a basic training on Installation, Operation & Maintenance of CP PLUS security products. It is designed for technical engineers and who have at least **6 months of industry experience** and have Class 12 **with a major in Science** and have already gained some basic security system knowledge.

### Level – 2 (CP PLUS CSP)

**CP PLUS Certified Surveillance Professional (CP PLUS CSP) Level – II** is designed for on-the-job System Engineers working for a SI or installers. This certification provides advanced technical operation and elementary training on CP PLUS Security Products. System Engineers with at **least 2 years with hands on experience** at installing a complete electronic security system can take this course. The trainee must also have pre-qualified Level-I CP PLUS CSE certifications OR **should have executed minimum two CCTV projects of valued at INR 10 Lacs plus in last 2 years.**

### Level – 3 (CP PLUS CSD)

**CP PLUS Certified System Designer (CP PLUS CSD) Level – III** is designed for focused participants interested in **Advanced designing of CP PLUS Vertical Specific Solutions** using state-of-the-art contemporary and niche surveillance technologies. Designed for electronic security **industry experts**, this certification provides a complete understanding on designing and implementing vertical solutions. Participants willing to undertake this certification must have qualified LI & L2 Level of CP PLUS Certifications OR should be working as Surveillance System Designers and **should have executed minimum two Surveillance Projects valued at INR 30 Lacs plus in last 2 years.**

# CP PLUS Certified Surveillance Engineer (CP PLUS CSE) Level – I

CP PLUS Certified Surveillance Engineers (CP PLUS CSE) Level 1 certification provides knowledge and hands-on experience of the fundamentals of CCTV Video Surveillance with special emphasis on Integrated IP technology and contemporary software technology for designing effective and intelligent security solutions. It is a 4-days program designed for professionals who wish to pursue a long term, profitable career in field of CCTV security system and installation.

The program is open to all individuals in the video surveillance industry with a 6 months experience in the business.

## **Programme Architecture:**

- Fundamentals of Electronic Security and Video Surveillance
- Overview: IP Surveillance & Networking
- Introduction to CP PLUS Products for integrated & intelligent IP Solutions
- System Integration & Configuration Techniques
- 50% Schedule with hands-on CP PLUS Products
- Introduction to NSDC and Skill India Mission Standards for CCTV Installers

## **Take Aways for Trainees:**

- Training with Best in industry
- State-of- Art IP Technology & Configuration
- Dual Certification by Electronic Sector Skill Council of India-ESSCI and CP PLUS.
- Eligibility for CP PLUS Level II Program
- Online registration as Qualified & Skilled CCTV Installer by Ministry of Skill Development & Entrepreneurship, through Electronic Sector Skill Council of India-ESSCI.

## **CP PLUS Exclusive:**

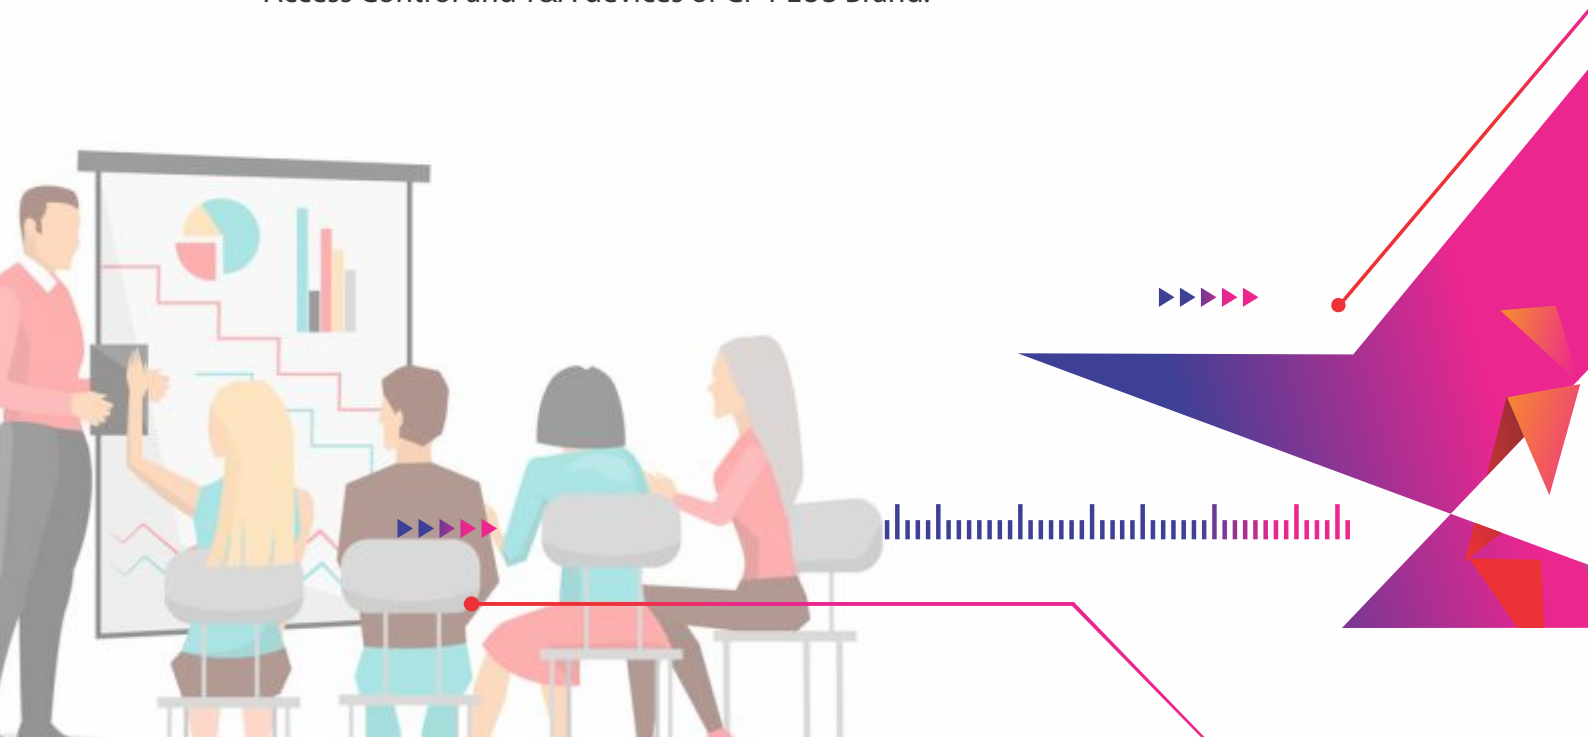

- International Certification of CP PLUS products
- Facilitates further NSDC Certification under RPL Schemes
- Re-examination option within six months
- CP PLUS Certificate valid for 2 Years from date of Completion of Program
- Opportunity to be CP PLUS Certified Integrators.
- Group Discounts of 15% for 3 or more trainees from one company

### **Training Methodology:**

- Method of Conduct; Class room training with simultaneous hands on CP PLUS Products.
- Integrated Technology Lab for Hands on Experience.
- Optimum Training Material for Trainees.
- Medium of Instructions: English, Hindi & regional language wherever is possible.
- Training is proposed to be conducted in all major cities of India.

### **Training Overview:**

- Introduction to CCTV Surveillance System
- Components of CCTV Surveillance System
- Terminology used in CCTV System.
- Forms of CCTV Surveillance Technology
- HD vs IP Surveillance.
- Selection of CCTV Camera.
- Selection of DVR/NVRs.
- Selection of Cables for Analog HD Surveillance System.
- Installation and Configuration of Analog HD System.
- Installation and Configuration of IP System.
- Networking Fundamentals.
- Selection of Internet Working Devices
- Camera Configuration and Installation + PTZ
- NVR & Web operation
- Remote Configuration & Connecting Multiple sites in CMS
- Configuring DVR/NVR/IP Camera in a Smartphone
- Installation and Commissioning of complete Intelligent Surveillance system.
- Access Control and T&A devices of CP PLUS Brand.

**Who Should Attend:**

- All those engaged in business of CCTV Installation & Integration.
- CP PLUS Partners – System Integrators, Installers, Dealers & Distributors.
- Engineering Freshers – Those who propose to pursue the profession in Networking and System Integration.
- Corporates – Those looking for Integrated, Electronic, Intelligent & Smart Security solutions in their Enterprises.
- Others – Security Professionals engaged in monitoring and handling Electronic Security System.

**Trainee Requirements:**

- Basic working knowledge of Security Management.
- Awareness on CCTV Cameras as Surveillance device.
- Minimum 10th/12th Standard pass.
- At least 6 months experience in Surveillance & Security Industry.

**Programme Duration:**

04 working days (Boarding & Lodging to be arranged & Paid by Trainees).

**Programme Fee:**

INR 9900.00 plus 18% GST Extra.

(Including ESSCI Certification fee).

**Special Discounts:**

15% Discount on Nomination of 3 or more Trainee from One Company.
