

CP PLUS inaugurates India's Largest CCTV Manufacturing Plant in Andhra Pradesh

A Proud Moment for CP PLUS, as the nation's leading surveillance brand inaugurates yet another manufacturing facility in the Kadapa District of Andhra Pradesh. Not just India's largest, this CP PLUS facility is set to become the world's Largest manufacturing plant anywhere outside of China and the 3rd Largest when including China. With this manufacturing unit now operating with the latest state-of-the-art hi-tech production, assembly, and testing lines, CP PLUS is primed to flood the Global market with India-made best-in-class security solutions that deliver much more than security and provide an enhanced living experience.

CP PLUS, India's leading CCTV brand, began producing surveillance devices locally in India in its Manufacturing facility in Tirupati, Andhra Pradesh 6 years ago. And since then, the brand has enhanced its manufacturing capabilities to reach the plant's maximum production capacity of 1Mn unit per month.

Now to meet the growing demand, CP PLUS has put up another manufacturing unit in Kadapa District, Andhra Pradesh. With the production commencing now, this new facility is set to have 3 times larger production capacity i.e. 3Mn Surveillance units per month, which will make it the World's Largest Manufacturing Unit for Surveillance Products, outside China and 3rd largest in the entire world when including China.

The CP PLUS manufacturing facility in Kadappa has been integrated with the world's latest Fuji-made state-of-the-art technology SMT Lines and semi-Robotic Assembly & Packaging Lines. All production area has been designed with ESD flooring, a dust-free, and air-conditioned environment to achieve the world's best quality of products.

This manufacturing facility has a wide range of Reliability Test Equipment to ensure the High quality of products manufactured and also to qualify for various certifications required in Tenders and by Govt. of India organizations like RDSO, AAI, PWD, Indian Navy, etc.

Mr. Aditya Khemka, Managing Director of CP PLUS expressed his intentions to further expand the production capacities manifolds in the future. "Backed by our R&D proficiency, we have plans in action to further augment our capabilities and become many times larger than the current size to produce 6 Mn units per month in the near future to make our brand more and more Atmanirbhar in order to accomplish our PM's dream and to make India truly self-reliant."
