

CP- SA-L45160-B**IR Illuminator - 160-100 Meter****Main Features**

- The Function of video analysis at night
- Reduce signal noise and other image distortion
- Conventional night monitoring
- To improve performance of the weak light camera and enhancing the picture effects at night.
- Reduce the network bandwidth requirements
- Energy saving by power factor correction

Specification

18pcs 2W dot-matrix IR LED
850nm
15° - 45°
High light transmittance toughened glass
160 -100 Mtr.
Auto (Build in photocell)
1.3meter
Wall mounting "U" bracket
-40°Cto 50°C
IP66
Black
Aluminum
AC85-265V/DC12V/AC24V
36W (50% design margin) (850nm)
280mm x 105mm x 88mm
560mm x 220mm x 180mm
3 kg
3.9 kg
