

# Quick Start Guide

## Welcome

Thank you for purchasing our NVR!

This quick start guide will help you become familiar with our NVR in a very short time.

Before installation and operation, please read the following safeguard and warning carefully!

## Important Safeguard and Warning

- ★ All installation and operation here should conform to your local electrical safety codes.
- ★ We assume no liability or responsibility for all the fires or electrical shock caused by improper handling or installation.
- ★ We are not liable for any problems caused by unauthorized modifications or attempted repair.
- ★ Improper battery use may result in fire, explosion, or personal injury!
- ★ When replace the battery, please make sure you are using the same model!

**Note: All the installation and operations here should conform to your local electric safety rules.**

### 1. Check Unpacked NVR

When you receive the NVR from the forwarding agent, please check whether there is any visible damage. The protective materials used for the package of the NVR can protect most accidental clashes during transportation. Then you can open the box to check the accessories.

Please check the items in accordance with the list. (Remote control is optional). Finally, you can remove the protective film of the NVR.

### 2. About Front Panel and Rear Panel

For detailed information of the function keys in the front panel and the ports in the rear panel, please refer to the *User's Manual* included in the resource CD.

The model in the front panel is very important; please check according to your purchase order. The label in the rear panel is very important too. Usually we need you to represent the serial number when we provide the service after sales.

### 3. HDD Installation

This series NVR has only one SATA HDD. Please use HDD of 7200rpm or higher. Please follow the instructions below to install hard disk.

All figures listed here are for reference only.

1. Loosen the screws of the rear panel and side panel.

2. Fix four screws in the HDD (Turn just three rounds).

3. Place the HDD in accordance with the four holes in the bottom.

4. Turn the device upside down and then turn the screws in firmly

5. Fix the HDD firmly.

6. Connect the HDD cable and power cable.

7. Put the cover in accordance with the clip and then place the upper cover back.

8. Secure the screws in the rear panel and the side panel.

## 4. Specification

<b>Model</b>	<b>CP-UNR-4K2081-V2</b>	
<b>System</b>	Main Processor	Dual-core embedded processor
	Operating System	Embedded LINUX
<b>Video&amp; Audio</b>	IP Camera Input	8 channels
	Two-way Talk	1channel Input, 1channel Output, RCA
<b>Display</b>	Interface	1 HDMI, 1 VGA
	Resolution	3840×2160, 1920×1080, 1280×1024, 1280×720, 1024×768
	Display Split	1/4/8/9
	OSD	Camera title, Time, Camera lock, Motion detection, Recording
<b>Recording</b>	Compression	Smart H.265/H.264
	Resolution	8Mp,6Mp, 5Mp, 4Mp, 3Mp, 1080P, 720P & D1 etc.
	Record Rate	Max 80Mbps
	Bit Rate	48~ 8192kbps
	Record Mode	Manual, Schedule (Regular (Continuous), MD, Alarm), Stop
	Record Interval	1~120 min (default: 60 min), Pre-record: 1~30 sec, Post-record: 10~300 sec
<b>Video Detection &amp; Alarm</b>	Trigger Events	Recording, PTZ, Tour, Alarm, Video Push, Screen tips
	Video Detection	Motion Detection, MD Zones: 396(22×18), & Camera Blank
<b>Playback &amp; Backup</b>	Sync Playback	1/4/8/9
	Search Mode	Time/Date, Alarm, MD & Exact search (accurate to second), Smart search
	Playback Function	Play, Pause, Stop, Rewind, Fast play, Slow play, Next file, Previous file, Next camera, Previous camera, Full screen, Repeat, Shuffle, Backup selection, Digital zoom
	Backup Mode	USB Device/Network/Internal SATA burner
<b>Network</b>	Ethernet	1 RJ-45 port (10/100/1000Mbps)
	Network Function (to be determined)	HTTP, HTTPS, TCP/IP, IPv4, RTSP, UDP, NTP, DHCP, DNS, IP Filter, DDNS, IP Search (Support Dahua IP camera, DVR, NVS and etc.)
	Max. User Access	128 users
	Smart Phone	iPhone, iPad, Android, Windows Phone
<b>Storage</b>	Internal HDD	1 SATA III ports, up to 6TB
<b>Auxiliary Interface</b>	USB	2 USB2.0
	Power Supply	DC12V/2A
	Power Consumption	NVR: 2.4W for normal model (without HDD & IPC)
	Working Environment	-10°C~+55°C/10%~90%RH/86~106kpa

<b>General</b>	<b>Dimension (WxDxH)</b>	Compact 1U, 260mmx220mmx45mm
	<b>Weight</b>	0.7~0.8KG for normal model(without HDD) (to be determined)

## 5. Front Panel

For detailed operation instruction of other series, please refer to the User's Manual included in the resources CD.

Please refer the below Front Panel. *Figure 1*

Figure 1

<b>SN</b>	<b>Name</b>	<b>Function</b>
1	HDD status indicator light	The red light becomes on when HDD is abnormal.
2	Power indicator light	The red light becomes on when the power connection is OK.
3	Network status indicator light	The red light becomes on when the network connection is abnormal.

## 6. Rear Panel

For detailed operation instruction of other series, please refer to the User's Manual included in the resources CD.

The rear panel is shown as in Figure 2 (Picture for reference only).

Figure 2

Please refer to the following sheet for detailed information.

Port Name	Connection	Function
	USB2.0 port	USB2.0 port. Connect to mouse, USB storage device, USB burner and etc.
	Network port	10M/100Mbps self-adaptive Ethernet port. Connect to the network cable.
HDMI	High Definition Media Interface	High definition audio and video signal output port. It transmits uncompressed high definition video and multiple-channel data to the HDMI port of the display device. HDMI version is 1.4.
VGA	VGA video output port	VGA video output port. Output analog video signal. It can connect to the monitor to view analog video.
	GND	Ground end
	Power input port	Input DC 12V/2A.
MIC IN	Audio input port	Bidirectional talk input port. It is to receive the analog audio signal output from the devices such as microphone, pickup.
MIC OUT	Audio output port	Audio output port. It is to output the analog audio signal to the devices such as the sound box. <ul style="list-style-type: none"> <li>★ Bidirectional talk output.</li> <li>★ Audio output on 1-window video monitor.</li> <li>★ Audio output on 1-window video playback.</li> </ul>

## 7. Connection Sample

Please refer to Figure 3 for connection sample.

The following figure is based on our CP-UNR-4K2162-V2 series product.

Figure 3

## 8. Device Initialization

If it is your first time to use the device, please set a login password of **admin** (system default user).

### Note

For your device safety, please keep your login password of **admin** well after the initialization steps, and change the password regularly.

### Steps:

Step 1 Boot up device.

Device displays device initialization interface. See Figure 4

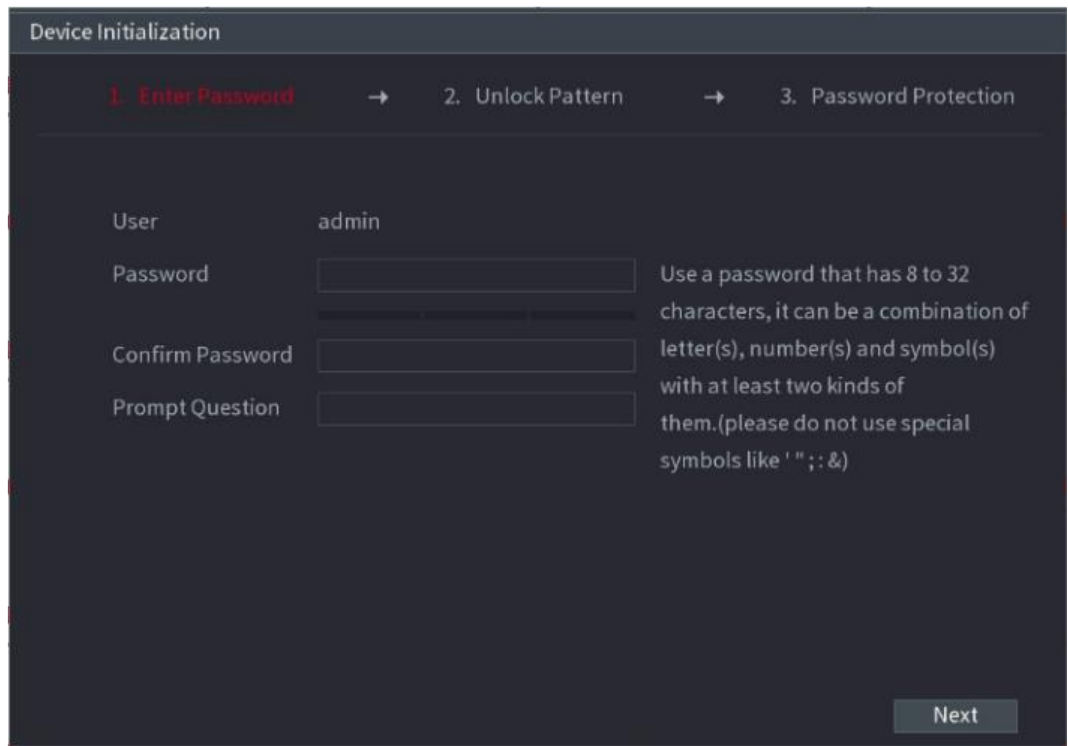

Figure 4

Step 2 Set login password of **admin**.

- ★ User name: The default user name is **admin**.
- ★ Password/confirm password: The password ranges from 8 to 32 digitals. It can contain letters, numbers and special characters (excluding “” , “” , “;” , “.” , “&” ). The password shall contain at least two categories. Usually we recommend the strong password.
- ★ Prompt question: If you set the prompt question here. On the login interface, click , device can display the corresponding prompt question for you to remind the password.

WARNING

**STRONG PASSWORD RECOMMENDED-For your device own safety, please create a strong password of your own choosing. We also recommend you change your password periodically especially in the high security system.**

Step 3 Click Next.

Device goes to unlock pattern interface. See Figure 5

Figure 5

Step 4 Set unlock pattern.

After set unlock pattern, device goes to password protection interface. See Figure 6

 **Note**

- ★ The unlock pattern shall at least contain 4 grids.
- ★ Device adopts unlock pattern to login by default if you have set pattern here. If there is no unlock pattern, please input the password to login.
- ★ Click Skip if there is no need to set unlock pattern.

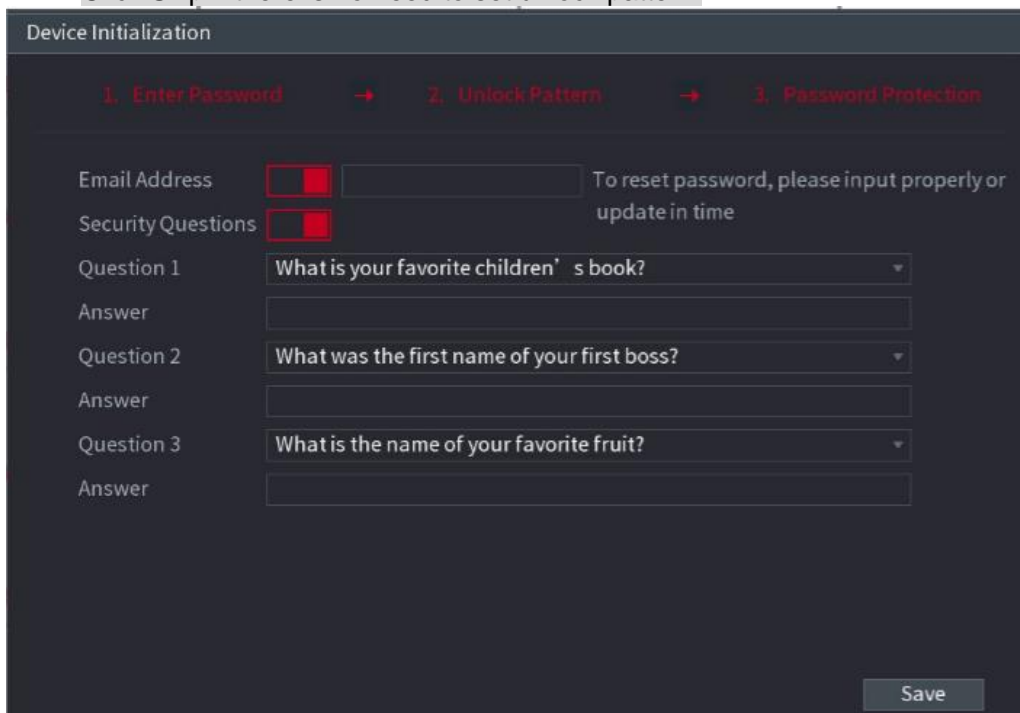

Figure 6

Step 5 Set security questions.

 **Note**

- ★ After setting the security questions here, you can use the email you input here or answer the security questions to reset admin password.
- ★ Cancel the email or security questions box and then click Next button to skip this step.

- ★ Email: Input an email address for reset password purpose. In case you forgot password in the future, input the security code you got on the assigned email to reset the password of admin. If

you have not input email here or you need to update the email information, please go to the main menu->Setting->System->Account to set.

- ★ Security question: Set security questions and corresponding answers. Properly answer the questions to reset admin password. In case you have not input security question here or you need to update the security question information, please go to the main menu->Setting->Setting->Account to set.

Step 6 Click OK to complete the device initialization setup.

Device goes to startup wizard interface. Refer to chapter **Error! Reference source not found.**

Quick Settings for detailed information.

## 8.1 Reset Password

If you forgot **admin** password, you can reset the password by email or by answering the security questions.

### Steps:

Step 1 Go to the device login interface. See Figure 7 or Figure 8.

- ★ If you have set unlock pattern, device displays unlock pattern login interface. See Figure 7**Error! Reference source not found.** Click “Forgot unlock pattern”, device goes to Figure 8.
- ★ If you have not set unlock pattern, device displays password interface. See **Error! Reference source not found.**

#### Note

Click Switch user button in Figure 7 or click the user name in Figure 8 and then select a user from the dropdown list, you can login via other account.

Figure 7

Figure 8

Step 2 Click .

If you have not input email address information when you are initializing the device, the interface is shown as in Figure 9. Please input an email address and then click Next button, devices goes to Figure 10.

★ If you have input email when you were initializing the device, device goes to Figure 10

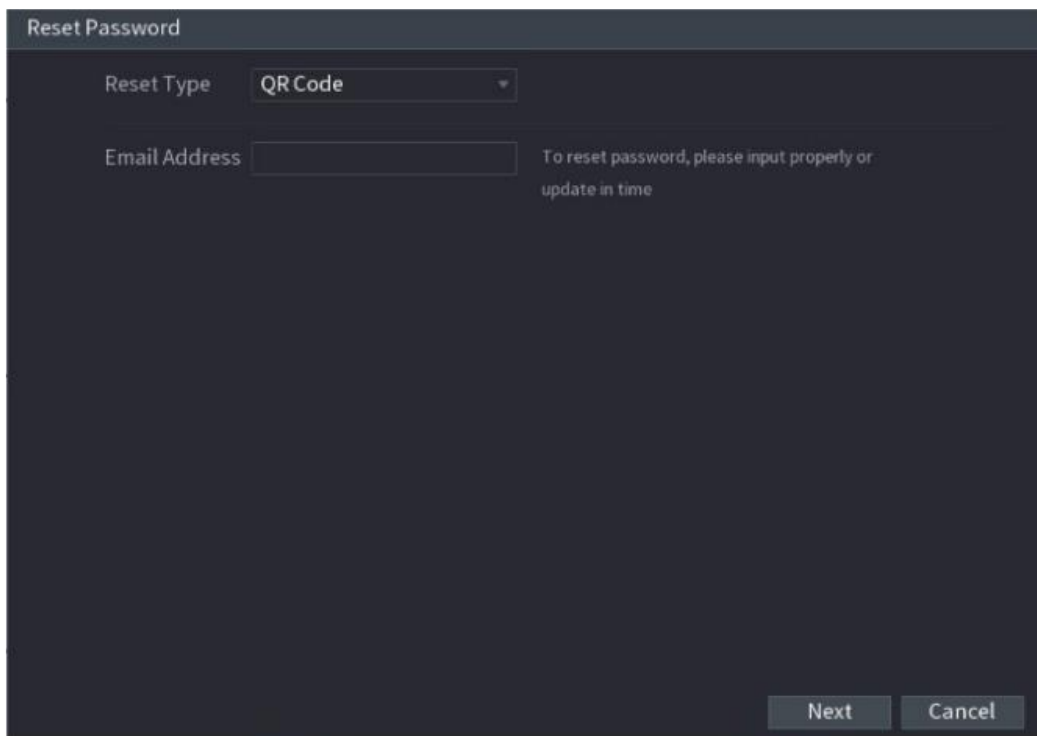

Figure 9

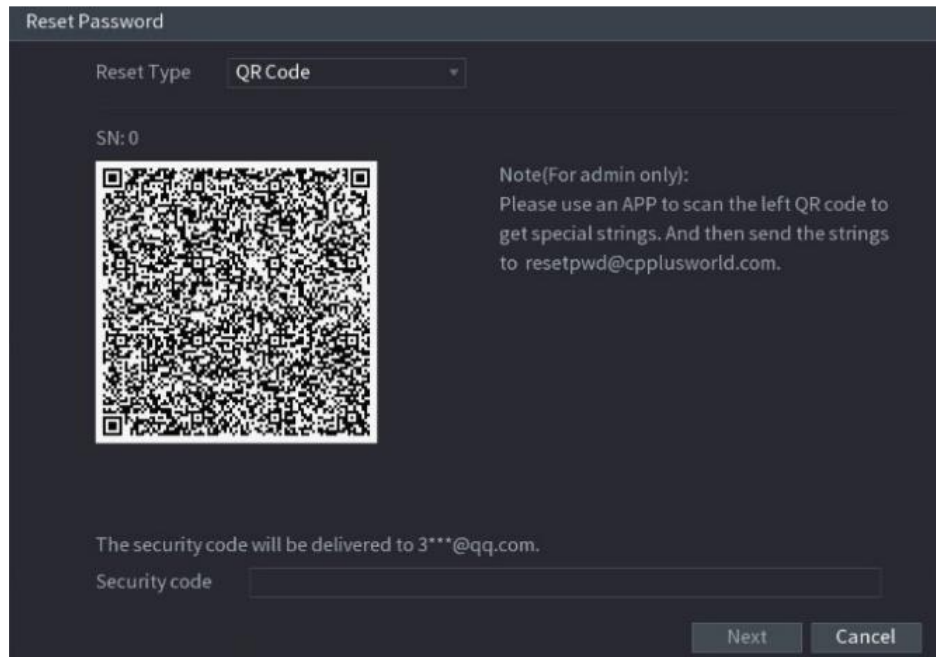

Figure 10

### Step 3 Reset login password.

There are two ways to reset the password: Scan QR code and reset by email/security questions (local menu only)

#### ★ Email

In Figure 10, follow the prompts on the interface to scan the QR code, and then input the security code you get via the assigned email.

#### WARNING

- ◇ For the same QR code, max scan twice to get two security codes. Refresh the QR code if you want to get security code again.
- ◇ The security code on your email is only valid for 24 hours.

#### ★ Security questions

In Figure 9, select security question from the drop down list. Device displays security question interface. See Figure 11. Please input the correct answers here.

#### Note

There is no security question item from the dropdown list if you have not set the security question and corresponding answers when initializing the device.

Reset the password

Reset Type: Security Questions

Question 1: What is your favorite children's book?  
Answer:

Question 2: What was the first name of your first boss?  
Answer:

Question 3: What is the name of your favorite fruit?  
Answer:

Next Cancel

Figure 11

Step 4 Click Next button.

Device displays reset password interface. See Figure 12.

Reset Password

Reset password of (admin)

New Password:

Use a password that has 8 to 32 characters, it can be a combination of letter(s), number(s) and symbol(s) with at least two kinds of them.(please do not use special symbols like ' " ; : &)

Confirm Password:

Save Cancel

Figure 12

Step 5 Input new password and then confirm.

WARNING

**STRONG PASSWORD RECOMMENDED-For your device own safety, please create a strong password of your own choosing. The password shall be at least 8-digit containing at least two types of the following categories: letters, numbers and symbols. We also recommend you change your password periodically especially in the high security system.**

Step 6 Click Save button to complete the reset setup.

Device pops up dialogue box asking you to sync the password to the camera connecting by the default protocol. See Figure 13. Click OK to change the camera password. See Figure 14.

**Note**

The following dialogue pops up if there is a digital channel.

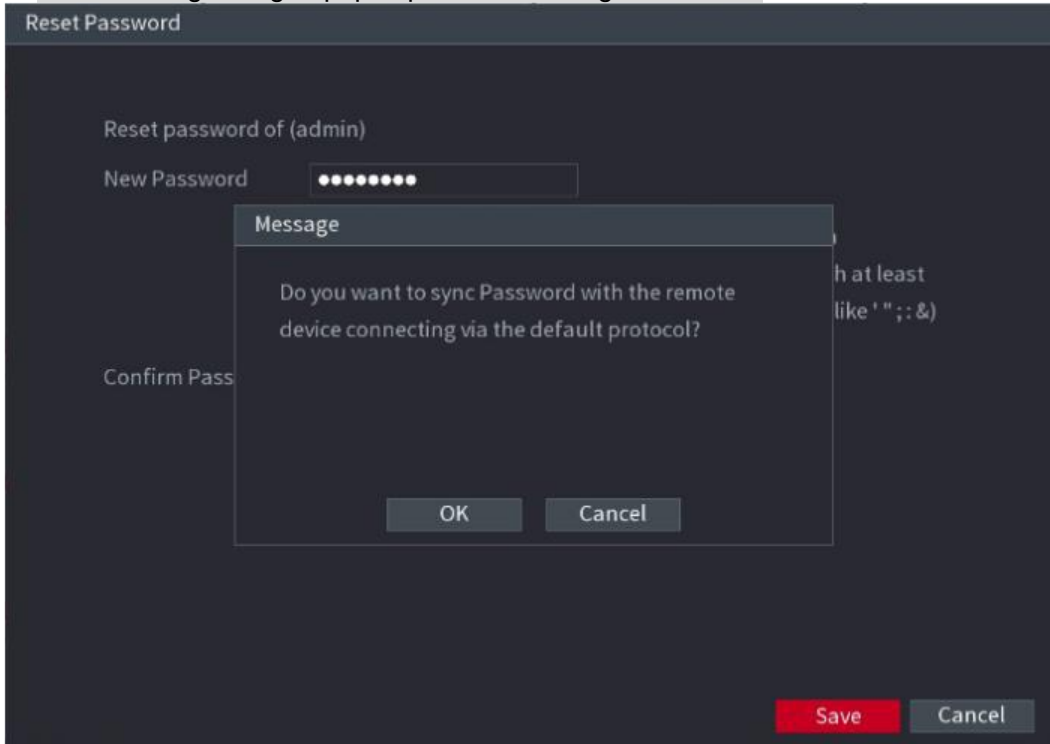

Figure 13

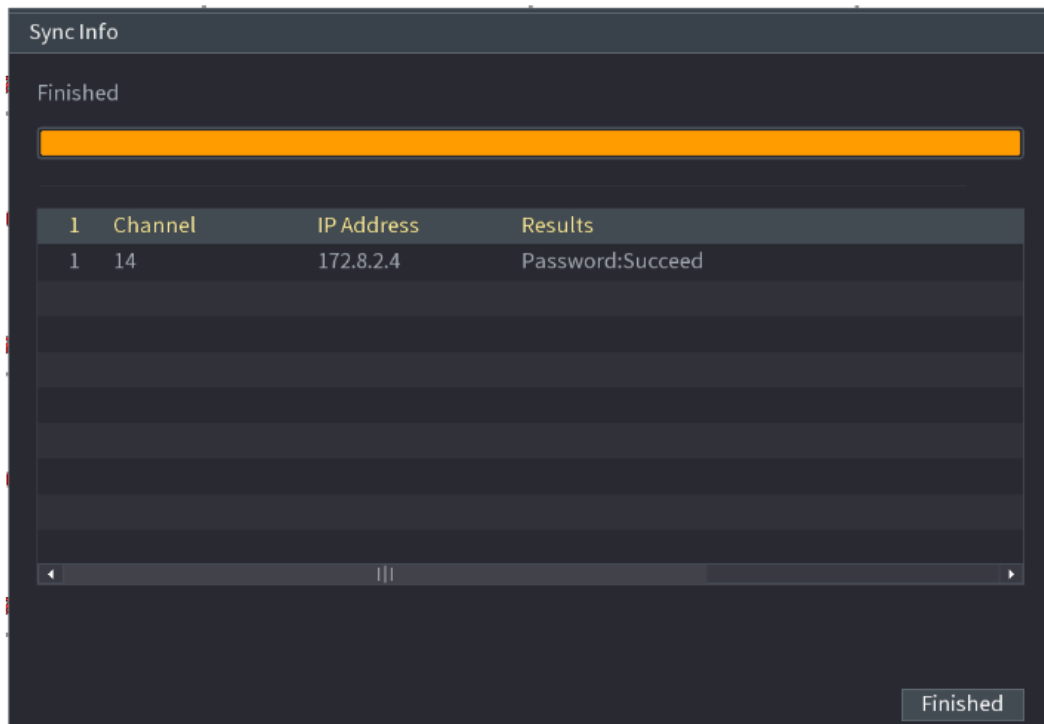

Figure 14

## 10. Web

Open IE and input NVR address in the address column. For example, if your NVR IP is 192.168.1.245, then please input http:// 192.168.1.245 in IE address column.

System pops up warning information to ask you whether install control or not. Please click Install button.

After installation, the interface is shown as below. See Figure 15

Please input your user name and password.

### Note

Device default user name is **admin**. The password is that you set during initialization process. For your device safety, please change the admin password regularly and keep it well.

A screenshot of a 'SYSTEM LOGIN' dialog box. The dialog has a dark background with white text. At the top, it says 'SYSTEM LOGIN'. Below that, there are two input fields. The first is labeled 'User Name' and contains the text 'admin'. The second is labeled 'Password' and is empty. To the right of each input field is a small icon. At the bottom of the dialog, there are two buttons: a red 'OK' button and a grey 'Cancel' button.

Figure 15

For detailed operation information, please refer to the *User's Manual* included in the resources CD.

## Appendix Toxic or Hazardous Materials or Elements

Component Name	Toxic or Hazardous Materials or Elements					
	Pb	Hg	Cd	Cr VI	PBB	PBDE
Sheet Metal(Case)	○	○	○	○	○	○
Plastic Parts (Panel)	○	○	○	○	○	○
Circuit Board	○	○	○	○	○	○
Fastener	○	○	○	○	○	○
Wire and Cable/AC Adapter	○	○	○	○	○	○
Packing Material	○	○	○	○	○	○
Accessories	○	○	○	○	○	○

### Note

O: Indicates that the concentration of the hazardous substance in all homogeneous materials in the parts is below the relevant threshold of the SJ/T11363-2006 standard.

X: Indicates that the concentration of the hazardous substance of at least one of all homogeneous materials in the parts is above the relevant threshold of the SJ/T11363-2006 standard. During the environmental-friendly use period (EFUP) period, the toxic or hazardous substance or elements contained in products will not leak or mutate so that the use of these (substances or elements) will not result in any severe environmental pollution, any bodily injury or damage to any assets. The consumer is not authorized to process such kind of substances or elements, please return to the corresponding local authorities to process according to your local government statutes.

### Note

- ★ For detailed operation introduction, please refer to our resource CD included in your package for electronic version of the *User's Manual*.
- ★ This quick start guide is for reference only. Slight difference may be found in the user interface.
